Contents

networks an international journal volume 20, number 1

Exact and Heuristic Algorithms for the Weighted Feedback Arc Set Problem: A Special Case of the Skew-Symmetric Quadratic Assignment Problem
M. M. Flood 1

A Network Model for the Rotating Workforce Scheduling Problem
N. Balakrishnan and R. T. Wong 25

An Algorithmic Note on the Gallai–Milgram Theorem
K. Cameron 43

An Airline Tail Routing Algorithm for Periodic Schedules
R. D. Wollmer 49

Approximation Algorithms for Covering a Graph by Vertex-Disjoint Paths of Maximum Total Weight
S. Moran, I. Newman, and Y. Wolfstahl 55

Directed Network Reliability: Domination and Computing Coefficients of the Success-Marginal Expansion
J. N. Hagstrom 65

Anti-Stalling Pivot Rules for the Network Simplex Algorithm
D. Goldfarb, J. Hao, and S.-R. Kai 79

Interconnecting Networks in the Plane: The Steiner Case
D. Trietsch 93

Faster Exact Algorithms for Steiner Trees in Planar Networks
M. Bern 109

networks an international journal volume 20, number 2

The Stochastic Multicommodity Flow Problem
H. Soroush and P.B. Mirchandani 121

Efficient Algorithms for Finding Maximum Cliques of an Overlap Graph
S. Masuda, K. Nakajima, T. Kashiwabara, and T. Fujisawa 157

A Combinatorial Problem Related to Distributed Loop Networks
D.-Z. Du, D.F. Hsu, Q. Li, and J. Xu 173

A Class of Bounded Approximation Algorithms for Graph Partitioning
T.A. Feo and M. Khellaf 181

Location of an Obnoxious Facility on a Network: A Voting Approach
M. Labbé 197
On Cost Allocation in Communication Networks
D. Granot and M. Hojati 209
Computing the Probability Distribution of Project Duration in a PERT Network
J.N. Hagstrom 231

networks an international journal volume 20, number 3

The Probabilistic Minimum Spanning Tree Problem
D.J. Bertsimas 245
Combining Monte Carlo Estimates and Bounds for Network Reliability
L.D. Nel and C.J. Colbourn 277
A Characterization of Partial 3-Trees
A. Satyanarayana and L. Tung 299
Fair Dissections of Spiders, Worms, and Caterpillars
C. de Simone, M. Lucertini, S. Pallottino, and B. Simeone 323
An Application of Lagrangean Decomposition to the Resource-Constrained Minimum Weighted Arborescence Problem
M. Guignard and M.B. Rosenwein 345

networks an international journal volume 20, number 4

Disjoint (*s*,*t*)-Cuts in a Network
D.K. Wagner 361
A Heuristic Algorithm for a Network Problem with Variable Upper Bounds
B. Shetty 373
Optimal Location of a Path or Tree on a Network with Cycles
M.B. Richey 391
Relaxation Methods for the Strictly Convex Multicommodity Flow Problem with Capacity Constraints on Individual Commodities
H. Nagamochi, M. Fukushima, and T. Ibaraki 409
A Graph-Theoretic Approach to Investigate Structural and Qualitative Properties of Systems: A Survey
T. Yamada and L.R. Foulds 427

Algorithms for Special Cases of Rectilinear Steiner Trees:
I. Points on the Boundary of a Rectilinear Rectangle
P.K. Agarwal and M.-T. Shing 453

networks an international journal volume 20, number 5

Introduction
R. D. Shachter 487
Independence Properties of Directed Markov Fields
S. L. Lauritzen, A. P. Dawid, B. N. Larsen, and H.-G. Leimer 491
Identifying Independence in Bayesian Networks
D. Geiger, T. Verma, and J. Pearl 507
An Ordered Examination of Influence Diagrams
R. D. Shachter 535
Medical Diagnosis Using Influence Diagrams
C. A. de Bragança Pereira and R. E. Barlow 565
Sequential Updating of Conditional Probabilities on Directed Graphical Structures
D. J. Spiegelhalter and S. L. Lauritzen 579
Probabilistic Similarity Networks
D. Heckerman 607
An Algebra of Bayesian Belief Universes for Knowledge-Based Systems
F. V. Jensen, K. G. Olesen, and S. K. Andersen 637
A Randomized Approximation Algorithm for Probabilistic Inference on Bayesian Belief Networks
R. M. Chavez and G. F. Cooper 661
Graphical Inference in Qualitative Probabilistic Networks
M. P. Wellman 687

networks an international journal volume 20, number 6

Matching Problems with Generalized Upper Bound Side Constraints
M. O. Ball, U. Derigs, C. Hilbrand, and A. Metz 703
On the Construction of Optimally Reliable Graphs
D. H. Smith and L. L. Doty 723
Hierarchical Solution to Network Flow Problems
A. V. Iyer, J. J. Jarvis, and H. D. Ratliff 731
Time-Dependent Traveling Salesman Problem–The Deliveryman Case
A. Lucena 753

A Lower Bound for the Steiner Tree Problem in Directed Graphs
W. Liu 765
Worst-Case Greedy Matchings in the Unit *d*-Cube
T. L. Snyder and J. M. Steele 779
Book Review 801

networks an international journal volume 20, number 7

Optimal Locations and Districts of Two Traveling Salesmen on a Tree
D. Simchi-Levi and O. Berman 803
The Search Game on a Network with Immobile Hider
E. J. Anderson and M. A. Aramendia 817
The Network Simplex Method on a Multiprocessor
J. Peters 845
Predicting Deadlock in Store-and-Forward Networks
C. Arbib, G. F. Italiano, and A. Panconesi 861
Efficient Algorithms for Computing the Reliability of Permutation and Interval Graphs
H. M. AboElFotoh and C. J. Colbourn 883
